Introducing Our New Detergent Injection System

The Butler Corporation is pleased to announce our new Detergent Injection System. The new compact stainless steel Detergent Injection System has been redesigned with a single check valve, replacing the previous two (2) valve design. This new system is now standard equipment on all new Butler Systems. Customers can continue to choose either the Cubic Centimeters (CC) Metering System or the Gallons Per Hour (GPH) Metering System. Available also as a replacement for existing Butler Systems.

Please call us at **800.535.5025** or visit our website
butlersystem.com for more information.
