& Service Since 1980

## IMPORTANT VEHICLE INFORMATION

### NEW VANS

We would like to inform all of our customers that we have been notified by General Motors that only 60 new vans for model year 2023 will be allotted to us. (a small percentage of our normal allocation)

If you are planning to purchase or lease a new van, "LittleBig" truck, box truck or cube van and Butler System in the next twelve to fifteen months, we suggest you notify our sales department and add your name to our waitlist as soon as possible. There is no obligation when adding your name to the waitlist. Customers on the list will be the first to be notified when these new vehicles become available.

### TRUCKS AND CUBE VANS

"LittleBig" trucks, box trucks and cube vans will also be in limited supply for model year 2023.

### PRE-OWNED VANS

We maintain a current inventory of "like new" low mileage pre-owned vans for you to choose from, all with the remaining factory 5-year/100,000 mile powertrain warranty.

### VAN SUPPLIED BY CUSTOMER

If you are considering purchasing a new van from your local dealer, we suggest that you place an order immediately, as it may be many months before it is produced. To lessen transportation costs, your dealer can have your van "drop-shipped" direct from the factory to one of our local dealers. We will be pleased to provide you, or your dealer, with the information needed to ensure that the van you are purchasing is suitable to accommodate the Butler System and all the Optional Equipment you may be considering.

Should you require additional assistance, information or to check availability, please call us at 800.535.5025 or email us at [info@butlersystem.com](mailto:info@butlersystem.com).
